3. Scholarship Conditions:

Springboard scholarships provide a specified dollar amount toward the price of tuition for the scholarship recipient(s) to attend one Springboard program. All scholarships are subject to the availability of funds and based on the satisfaction of scholarship conditions. The scholarship awarded may vary at the discretion of the scholarship review committee based upon the number of scholarships awarded and the caliber of applications received.

All scholarship funds will apply to tuition only and will be applied upon enrollment into the course. If your tuition charges exceed the value of the scholarship, you shall remain responsible for payment of the remainder of your tuition obligations. Students will also be responsible for any additional fees associated with their chosen program. Scholarships have no cash value, thus, if you do not complete your program, you will forfeit any funds not applied to your program.

A scholarship may be transferred to another program once the student begins to study in their program. Scholarships may not be applied retroactively. The scholarship may not be applied in conjunction with any other Springboard or Partner scholarship or promotion offering. If a student is a chosen recipient for more than one scholarship, the higher scholarship amount will prevail. There is only one exception to this condition – students can combine either the Women In Tech or Diversity In Tech scholarships with the Needs-Based scholarship, summing to \$1500, if they are eligible for each scholarship individually.

Scholarships apply to the Upfront, Monthly, or Financing payment methods. At the moment, Deferred Tuition applicants are not eligible for a scholarship.

The scholarship may be forfeited if:

- you withdraw or are dismissed from the course;
- you are found to have made any false or misleading statements in connection with your application for the scholarship or the Program;
- you engage in misconduct in violation of Springboard's Code of Conduct or otherwise materially violate applicable policies or any agreement between the student and Springboard.

4. Privacy And Use Of Personal Information:

If you submit an application, we will process your personal data. We need to use your personal data to administer the scholarship program (to assess applicants and to contact you).

All applicants agree to receive email communications from Springboard.
